

## **REMARKS**

The following amendments are presented for this Application in response to the telephone conversation on November 16, 2007. The amendments also include changes made in response to a telephone conversation on November 20, 2007, and a subsequent follow-up call from the Examiner. The current amendment repeats the amendments that were faxed to the Examiner yesterday, and now also amend claims 30-42 so as to refer to a "computer readable medium", as requested by the Examiner.

### **Title Amendments**

The title has been amended to more specifically describe the nature of the invention.

### **Claim Amendments**

In order to advance the prosecution of this patent application to issuance, and without expressly or impliedly admitting that the Applicant is in agreement with the Examiner's rationale for the rejections of claims, the Applicant has amended claims 30-38 and 40-42, 43, 46 and 49. Claims 30, 43, 46 and 49 are amended to include material similar to that found in claim 54. Accordingly, claim 54 is cancelled without prejudice or disclaimer.

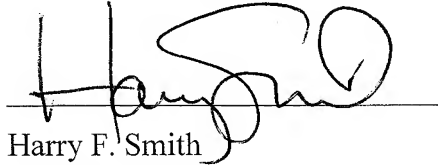

Claims 55 is amended to depend from claim 46.

Claim 39 and 51 are cancelled without prejudice or disclaimer.

No new matter is added.

For the foregoing reasons, the Applicants believe that each and every issue raised by the Examiner has been adequately addressed and that this application is in a condition for allowance. As such, early and favorable action is respectfully solicited.

Respectfully submitted:
